**POSTER PREPATATION**

Posters should stimulate discussion; not give a long presentation. Therefore, keep text to a minimum, emphasize graphics, and make sure everything in your poster is necessary. Posters should meet the following criteria:

**TITLE**

The title should reflect the content of your poster and match your abstract submission.

**CONTACT INFORMATION**

Name, organisation, e-mail address of the corresponding author and the affiliations of all co-authors should appear on the poster.

**LETTERING**

The poster should be easily readable at a distance of two metres. Use Sentence case for general content as the use of all-capital text is difficult to read. Avoid using mixtures of type/font styles.

TYPE OF TEXT	SIZE OF CHARACTERS	CASE / STYLE	GENERAL ADVICE
<b>TITLE</b>	72 point is suggested 20-24 mm or 100 point maximum	Title Case / <b>Bold</b>	At the top of the poster include the title of the presentation, the name of the authors and the contact details for the corresponding author.
<b>HEADINGS</b>	48 point is suggested 60 point maximum	Title Case	Headings such as "Introduction", "Methods", "Results", "Discussions" and "Conclusions" are useful.
<b>CONTENT</b>	24-28 point 32 maximum Single spaced	Upper and Lower Case	The text should be brief throughout. Any description of methods should be simple and concise.
<b>LABELS AND TEXT IN TABLES</b>	28 point	Upper and Lower Case	Any description of methods should be simple and concise.

## SIZE

The poster must be no larger than **portrait A0 (841mm × 1189mm) (2.7592ft x 3.9009ft) (33.1 x 46.8 in)**.

## GENERAL ADVICE FOR FIRST TIME PRESENTERS

- The message that your poster contains should be clear and understandable without the requirement of oral explanation. Methods should be presented simply and concisely.
- Handouts can be very useful, however please note that these cannot be placed on the floor for safety reasons. If handouts or poster packaging is found on the floor, the Conference Managers will remove them. If you wish to supply handouts you must hand these to delegates personally.
- After the title, the two most important panels are the Introduction and the Conclusion. On the basis of these two panels, a reader will decide whether to consider the poster details and perhaps talk to the presenter. These panels need to be very simple, concise and visually attractive.
- Use pictures, symbols and colour. Figure legends are essential and should be short but informative. Each graph should have a short heading. For visual effect, we recommend that graphs be no smaller than 12cm x 18cm. **Please be mindful of any copyright issues of photos used when creating your poster.**
- A matte finish on photographs gives better visibility. Photographs should be no smaller than 12cm x 18cm.
- Use the space to attract your audience for discussion, not to present complex details of methods and results.

## DECLARATION OF INTEREST

All financial support for the work and collaboration must be acknowledged as part of the presentation.

## LANGUAGE

Please note that the official Conference language is English. **All presentations must be made in English.**

*Please note that you are required to bring Velcro to attach your poster to the poster boards – the use of pins to secure posters is not effective as the poster boards are covered in a felt material.*

**Thank you for your help in making the International Conference on Radar 2018 a success.**
